Artisans Portfolio

Established in 2015, rCube Enterprises is a company that is poised with elegance, flair, and stylishness when it comes to its products. Our undertaking is to express tribute to the handcraft men who are spreading their artistry to very limited areas.

In unison, we exercise to acquaint the fellows about the aptness and workmanship they hold in them. They are often sighted working under baffling conditions in villages or forsaken locations around in India. Often penniless and begging for basic amenities like electricity, water, etc. Adding to their livelihood, they are often inadequate with limited means to propagate their work since they don't have any set establishments for sale.

During the course, we also realized the fact that how they are victims of discrimination and often fleeced by fellow men for being underprivileged. Their efforts are not largely recognized and regarded.

Wooden Craft

The wood carving is done only on the walnut wood. Different designs are available with us on demand. The wood carving and fret work are with different depth levels. Deep carving is 2 or more inches deep and the popular motifs are lotus flower. Second comes the Shallow carving and is usually half inch or more deep, done on the entire flat surface, open or lattice work depicting the chinar motifs. Finally their comes the semi carving done on the thin panel along rim of surface containing the centre motif.

Best part of the walnut tree is root, its colour is dark and grains are pronounced well, the colour faints at trunk and branches have the lightest colour and is the most inferior in quality. And deep carving is the costliest because it consumes more labour and time. A decorative of wood carving will be the best souvenir for home, gifting to family and friends.

Timber Calibre

Design properties of timber are in its appearance and applications since it holds an innate attraction for designers and users alike. When approaching a timber table, art or a piece, many people reach out to touch it as the feel of wood complements what the eye sees. Unlike the other materials, timber has a natural, irregular character in its grain and texture. Reflecting the growth of the original tree, the wood gets seasoned to its utmost test and result into the finished product like many artefact, such as a musical instrument, lamp, table or furniture. The link to nature inspires a basic response that the wood craftman can recognise and use. And than comes theatrical piece with full of life, animation and oomph.

Walnut wood is beautiful, strong and versatile wood. It comes from a modeate size tree which grows to be about 100 ft tall. The wood ranges in colour from light to dark brown to chocolate brown. Walnut is warm and rich in colour and finishes well. It polishes to a very smooth finish, making it ideal for furniture making and carving..
